REASONS FOR ALLOWANCE

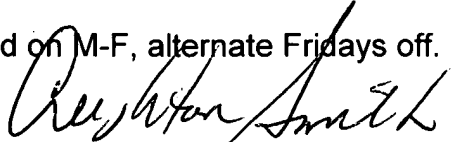

The following is an examiner's statement of reasons for allowance: The prior art fails to teach applicant's additional steps of a calling party sending a call or message to a receiving wireless device, in the art of checking the status of a wireless device.

Neither does the prior art teach periodically signaling a wireless device to determine its operational status. Sandegren '930 specifically teaches in cols. 1 & 7, lines 45-49 & 5-8, that the method gives the user information about who is presently available to accept a call, thereby eliminating wasted efforts at reaching people who will not respond, whereas in applicant's method the caller first places a call before finding out the status of the calling party. No obvious combination of references found would have taught one of ordinary skill in the art to make and use applicant's method as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Creighton H. Smith whose telephone number is 571/272-7546. The examiner can normally be reached on M-F, alternate Fridays off.
